

RoHS & REACH Compliance Declaration

SST Sensing Ltd. declares that, to the best of its knowledge, the following product ranges are fully compliant to the Directive (EU) 2015/863 amendment of the RoHS 3 DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS).

With regard to the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), although there is no requirement for monitoring and control instruments, SST Sensing Ltd declares that, to the best of its knowledge, the following Sensors are fully compliant with the restrictions of SVHC (substance of very high concern) in EC 1907/2006 regulated by the European Union along with the REACH restriction of the use of certain hazardous substances in electrical and electronic equipment. I can confirm that SST Sensing Ltd. also comply with the purchase requirements where all chemicals are purchased from within the EU, we do not use chemicals identified as being a substance of very high concern and our weight usage of any single chemical or substance is far less than 1 tonne per year.

None of our products contain substances greater than 0.1% by weight of a Substance of Very High Concern (SVHC) listed in Annex XIV as of June 14, 2023. SST regularly checks that its products remain compliant with the relevant regulations to ensure all deliveries are covered by this compliance declaration.

Product families covered by this declaration including their associated accessories:

- Zirconia oxygen sensors
- Luminescence quenching oxygen sensors
- Carbon dioxide sensors
- Carbon monoxide sensors
- Liquid level sensors
- Customer-specific products
- Instruments
- Interface electronics
